JavaScript (JS) is a lightweight interpreted or JIT-compiled programming language with first-class functions. It is most well-known as the scripting language for Web pages, but it is also used in many non-browser environments also use it, such as Node.js, Apache CouchDB and Adobe Acrobat. JavaScript is a prototype-based, multi-paradigm, dynamic language, supporting object-oriented, imperative, and declarative (e.g. functional

COOL STUFF

A close-up photograph of a dog and a cat. The dog, on the left, has long, wavy fur in shades of white, brown, and black, and striking blue eyes. The cat, on the right, is black and white with a blue collar. They are both looking at each other. A speech bubble with a black border and white background is positioned above the cat, containing the text: "You can DO IT... Believe in yourself.. As I Believe in you..".

You can DO IT...
Believe in yourself..
As I Believe in you..
